

ESG REPORTING

Proving your sustainability credentials through a formal ESG framework can seem daunting, but it doesn't have to be.

We bring a fresh approach: an enterprise-grade software-platform with inclusive consultancy and advisory. Nobody else offers our level of support!

With coverage of all of the major global standards, including both regulatory and UK sector-specific requirements, you can rely on ESG Pro to get the results your organisation needs.

40+
ESG FRAMEWORKS

PROVEN CERTIFIED
REPORTING FOR
ESG

GRI, ISSB, CSRD

The universal standards for mid-to large businesses.

B CORP

The perfect standard for any consumer-facing small business.

ECOVADIS

The top certification for B2B organisations to win new clients.

NHS EVERGREEN

Required by the 300,000+ businesses supplying the UK NHS.

WHY CHOOSE ESG PRO™?

Our teams support the smallest businesses and work globally for some of the world's biggest corporations. Experience counts, and we're leading the way.

- ✓ No matter your goals, we offer an affordable, tailor-made approach to fulfilment.
- ✓ By offering a highly modular approach, we are always meet client deadlines, and we match our pace of delivery to your internal resources.

UNIQUELY QUALIFIED

Only ESG Pro is certified to the GRI, B Corp, EcoVadis Gold, NHS Evergreen, and even the CSRD — **we are the UK's proven industry experts!**

KEY ESG STEPS

.....

- ✔ **ESG Preliminaries & Gap Analysis**
From a materiality assessment and peer review, to identifying your overall ESG readiness, this is the starting point.
- ✔ **Supply Chain Audit**
Every ESG framework now prioritises knowing your suppliers and identifying the risks they pose to your organisation.
- ✔ **ESG Policies Remediation**
Our in-house legal team assesses your policies and develops the metrics needed to prove their implementation.
- ✔ **Comprehensive Disclosure Support**
Work with our consultants 1:1 to prepare your responses and fill in the gaps. This is where you are strengthening your business!
- ✔ **Annual Sustainability Report**
We will copyright and design your corporate-grade sustainability to present your organisation in the very best light.
- ✔ **ESG Rating and Certification**
Every business can be certified, even not-for profits! In fact, ESG Pro routinely secures dual accreditations for clients.

THE ESG PRO ADVANTAGE

.....

We have always believed that ESG reporting must be accessible to organisations of every size, and in every sector, and that remains the bedrock of our business.

Our support of clients across multiple sectors as diverse as aerospace, charities, and even governments, we bring valuable insights and unique problem-solving skills.

What truly sets us apart, however, is that we are founded on the basis of delivering genuine, quantifiable social value. To us, ESG is a way of life.

- ✔ We offer all of the related services you might require such as carbon emissions reporting, bids and tenders advisory and support, certifications for Modern Slavery, and social value delivery.
- ✔ Our entire process prioritises consultancy and engagement, so we are doing the "heavy lifting". Importantly, we don't charge for our core software platform, enabling you to focus on project execution.
- ✔ Over ten years, we have built an exceptional record of **securing all clients a first-time** certification pass regardless of the frameworks selected.

HOW WE WORK FOR YOU

.....

Every client is assigned an executive sponsor, a project manager, and even a Senior Sustainability Lawyer to support their journey. Nothing is left to chance, and your success is assured.

Your dedicated team of consultants work for you in 2-hour blocks, but they will also be working offline which frees your team to focus on their core duties.

Some clients prefer a fractional sustainability manager approach: this can take the form of any number of set hours or days per week, saving many £1,000's vs. recruiting in-house expertise.

Flexibility is our mantra, and our client success stories demonstrate that we have forged a new path.

Fresh thinking. It's the ESG Pro way!
