In-house support for all related services required to excel.

Efficient

We work at your pace with personalised advisory services.

Affordable

Multiple options for businesses of every size and industry.

Scalable

From a cold start to aiming for Platinum, we have it covered!

WHY CHOOSE ESG PRO™?

We deliver EcoVadis certification support globally—it's in our DNA, driven to make a positive impact.

- ✓ Our 100% first-time EcoVadis™ audit success rate speaks for itself. Why take chances?
- ✓ A single point of procurement for all aspects of ESG, including carbon reporting, ESOS, SECR, NHS Evergreen, ISSB and much more.
- ✓ Our rapid decarbonisation via procurement optimisation makes sustainability self-funding.

UNIQUELY QUALIFIED

We're not just an EcoVadis Approved Training Partner and EcoVadis Gold medalist, but also a certified B Corp™ — and **our experience is your ticket to success.**

KEY REQUIREMENTS

.....

- ✓ **Comprehensive carbon emissions** reporting (Scopes 1, 2, and relevant Scope 3) is essential. Disclosing emissions, reduction targets, and progress supports strong environmental scoring.
- ✓ **A documented suite of policies** covering environment, labour and human rights, ethics, and procurement is critical. Clear implementation evidence and KPIs are expected.
- ✓ **Ethical governance and compliance** are central. Companies must demonstrate anti-corruption practices, data protection controls, and business integrity systems.
- ✓ **Employee conditions** must be clearly evidenced, including fair pay, diversity & inclusion efforts, training, and health & safety practices.
- ✓ **Responsible sourcing** is a core theme. Documented supplier assessments, risk mapping, and codes of conduct are essential.

ESG PRO™ GO BEYOND

.....

The experience and size of our team enables every client to achieve excellence. Our **Plan, Do, Check, Act** methodology accelerates your progress so wherever you are on your EcoVadis journey, you can be confident of success.

- ✓ From an initial gap analysis to customised policy drafting by our in-house legal team, and we also create the processes to evidence your actions.
- ✓ Our GHG carbon reporting services are fully aligned to the GHG Protocol, the SBTi, and DEFRA/EPA standards.
- ✓ Every client is assigned a dedicated project team, and every employee is a certified EcoVadis Solutions Practitioner.
- ✓ If you're one of the 2m+ firms in the NHS supply chain, we can progress to securing your NHS Evergreen rating too!
- ✓ We hold a Global Reporting Institute (GRI) ESG framework rating—it's why we are so successful in helping our clients achieve the prestigious Gold and Platinum badges.
- ✓ For clients who want to go further, we have our own in-house team able to prepare Annual Sustainability Reports, with all copy-writing and graphics design services.

HOW WE WORK FOR YOU

.....

We'll guide you as to how many days of consultancy you might require, and then we build a total project plan designed around your internal resources.

Guided by your dedicated project manager and lead consultant, our service is provided in 2-hour units over the course of many days, weeks, or months. Our team will deliver much of their work offline, freeing you up while they make progress.

From personalised action plans through to total audit support, you'll find the process engaging and the business benefits quantifiable.

Fresh thinking. It's the ESG Pro way!
