

EPD & LCA REPORTS

LCAs calculate a product's environmental impact, and EPDs are the formal certification process.

Demanded in supply chains, and across the construction and engineering sectors, it's highly skilled carbon accounting, similar in complexity to securing a major ISO certification.

ESG Pro have the experts and the software to make the process affordable and efficient. Whether it's for one product or dozens, UK or international, we are ready to offer our guidance.

CERTIFICATION
EXPERTS

ECA

An Embodied Carbon Assessment quantifies greenhouse gasses in product manufacture.

LCA

A Life Cycle Assessment quantifies greenhouse gasses generated via product manufacture.

EPD

An Environmental Product Declaration is a verified product environmental report.

PAS 20280

The BSi certified commitment to reducing carbon emissions in construction process.

WHY CHOOSE ESG PRO™?

No other consultancy offers such a broad spectrum of ESG consulting services.

- ✓ We add value from the LCA and EPD process by creating product level ESG reports.
- ✓ With multiple product lines, the ESG Pro approach ensures you control LCA & EPD certification cost via an optional partial or full self-service model.

UNIQUELY QUALIFIED

Our carbon reporting services meet the international standards—it's why we are trusted with corporates to manage their multi-jurisdictional analysis across the UK, Europe, Middle East, Asia, and the Americas.

LCA DATA MADE SIMPLE

.....

- ✓ **Utilise** advanced technology and expert guidance combine to make Life Cycle Assessments and Environmental Product Declarations fast, accurate, and affordable.
- ✓ **Quantify** environmental impact across materials, manufacturing, transport, and end-of-life stages using recognised international standards such as ISO 14040, ISO 14044, and EN 15804.
- ✓ **Automate** data collection from production sites to generate hundreds of LCAs or EPDs simultaneously—reducing both verification time and cost.
- ✓ **Produce** fully verified, regulation-ready environmental reports suitable for procurement frameworks, client tenders, and marketing collateral.
- ✓ **Identify** carbon hotspots and compare design scenarios to target the most effective reduction measures across product ranges.
- ✓ **Benefit** from a platform designed for manufacturers, construction suppliers, and product designers to evidence sustainability performance and gain a competitive edge.

ESG PRO™ COMPLIANCE TO COMPETITIVE ADVANTAGE

.....

Sustainability is more than a requirement – it's a sales advantage. ESG Pro helps you turn product data into powerful proof of environmental performance, strengthening your market position and winning customer trust.

Our team manages every step, from data collection to verified EPDs, so you can focus on what matters: growth and innovation. Each project includes:

- ✓ Dedicated consultants to guide your EPD and LCA certification journey.
- ✓ Access to our cloud-based platform for seamless data sharing and results tracking.
- ✓ Professionally designed EPD and LCA reports, ready for marketing and tender submissions.
- ✓ Optional branding and training packages to help your teams build in-house expertise.

Our combination of technology and expertise delivers measurable impact and commercial results.

We help you win tenders, attract customers, and prove compliance with confidence. Each verified EPD or LCA strengthens your reputation. Sustainability is more than compliance: it's your competitive edge.

HOW WE WORK FOR YOU

.....

We start every client project with an initial onboarding session a Gantt chart time-line. The project plan is designed around your internal resources.

Guided by your dedicated project manager and lead consultant, our consultants engage via 30-60 minute online sessions. Our team conduct almost all of their work offline so as to not be a drain on your resources.

For all regulatory reporting, we even provide our software platform free of charge, so you have a super-easy portal for uploading your data.

Fresh thinking. It's the ESG Pro way!
