

## IQ ESG<sup>®</sup> PLATFORM

### Turn compliance into competitive advantage.

Our platform centralises your ESG data, workflows and reporting, so ESG becomes faster and easier.

Complete your regulatory obligations such as SECR, and accelerate your EcoVadis and B Corp certification processes.

IQ ESG enables you to meet your wider obligations with confidence. From supplier assessments to social value, everything lives in one place, ready for audit.

## EASY SUBSCRIPTION

## COMPREHENSIVE ESG REPORTING SOFTWARE

### SCALABILITY

A single platform for every user, team and site, with configurable fields, roles and workflows that flex as you grow.

### DASHBOARDS

Real-time, role-based views of progress, risks, KPIs and approvals, from project to portfolio across every framework.

### API & WORKFLOW

Connect external data sources, automate data requests to internal owners & suppliers. Less admin, more assurance.

### AFFORDABLE

Enterprise capability for a tiny monthly subscription. Start fast, scale quickly, and show clear social value today.

## WHY CHOOSE ESG PRO<sup>™</sup>?

- ☒ **End-to-end delivery**  
We combine software, ESG, legal, and carbon expertise to deliver everything needed for certification and ongoing reporting.
- ☒ **Proven outcomes**  
Experience our 100% first-time audit success across the entire CSR, ESG, and regulatory demands. We know what auditors test.

## UNIQUELY QUALIFIED

We're not just an award-winning consultancy, we're the #1 EcoVadis<sup>™</sup> Approved Training Partner, an EcoVadis Gold medallist, and a certified B Corp<sup>™</sup>.

# IQ-ESG HIGHLIGHTS

.....

- ✓ **Strategy to action**  
Translate leadership goals into programmes, projects and measurable KPIs with clear owners and timelines.
- ✓ **Gateway governance**  
Stage-gate approvals and audit trails ensure the right decisions are recorded before milestones close.
- ✓ **Automated data-acquisition**  
Schedule requests to internal and external data owners. Evidence lands in the system, ready for dashboards and reports.
- ✓ **Stakeholder CRM**  
Manage stakeholders and engagement plans in one place to sustain momentum and track outcomes.
- ✓ **Budget and ROI**  
Track costs, budget and value creation to evidence the benefits of your ESG programme.
- ✓ **Reduces consultancy costs**  
More efficient communication and a “single point of truth” saves you considerable time and resource.

# ESG PRO™ GO BEYOND

.....

IQ ESG transforms the way our consultants work with you. The platform removes the endless cycle of emails and spreadsheets by automating data collection and consolidating all required evidence into one secure system. Every document, metric, and approval is captured once and reused across your reporting frameworks—reducing disruption to your team and speeding up audit readiness.

Our consultancy teams use IQ ESG to manage actions, progress, and evidence in real time. It allows parallel work-streams to run efficiently, so the many threads of Carbon Accounting and ESG KPIs advance together, avoiding costly dependency delays. The result is clearer ownership, faster progress, and complete traceability.

IQ ESG scales with your organisation. Start with the **Strategy, Data, and Impacts** module for baseline reporting and expand seamlessly to **People & Infrastructure** for governance and compliance, or **Portfolio Ecosystems** for multi-entity oversight.

Whichever level you adopt—Essentials, Team, or Portfolio—the same unified data structure powers your ESG strategy from the first policy to full value creation.

# HOW WE WORK FOR YOU

.....

We'll guide you as to how many days of consultancy you might require, and then we build a total project plan designed around your internal resources.

Guided by your dedicated project manager and lead consultant, our service is provided in 2-hour units over the course of many days, weeks, or months. Our team will deliver much of their work offline, freeing you up while they make progress.

From personalised action plans through to total audit support, you'll find the process engaging and the business benefits quantifiable.

**Fresh thinking. It's the ESG Pro way!**
