

The construction industry has been under the sustainability spotlight for many years, and the challenges remain.

ESG Pro have the sector expertise to help businesses across the industry to compete. We ensure you won't lose any more points on RFPs because you lack internationally recognised sustainability certifications such as EcoVadis™. From complete carbon reporting (SECR, ESOS, LCAs, EPD) through to supporting your ISO re-certifications, we go as far as procurement optimisation to make it a self-funding exercise. Enhance your business reputation: speak with construction industry experts!

CONSTRUCTION SECTOR SUSTAINABILITY AND ESG SOLUTIONS

CARBON REPORTING

PPN, SECR, ESOS, etc. – we do it all with a revolutionary efficiency.

EVOVADIS CERTIFICATION

The only UK-based Approved Training Partner for the top sustainability mark.

PROCUREMENT

Our expertise makes sustainability reporting self-funding. Request a demonstration.

PPN 006 & NHS EVERGREEN

Required by the 5m+ businesses in NHS and local government supply chains.

WHY CHOOSE ESG PRO™?

Not only are we members of the CPA (Construction Plant-hire Association) and the TLICN, we're proven across the industry and the trades.

Greentown

UNIQUELY QUALIFIED

Only ESG Pro is certified to the GRI, B Corp, EcoVadis Gold, NHS Evergreen, Modern Slavery, and more — **we are the UK's proven sustainability experts!**

PAIN POINTS SOLVED

- ▶ **Sustainability criteria in tenders**
Almost every tender weighs 20% on sustainability, and the Procurement Act forces government and NHS adherence.
- ▶ **Carbon & Supply Chain Pressure**
Your carbon footprint impacts your desirability as a supplier, and carbon reports must now be comprehensive.
- ▶ **Calculating & Evidencing Social Value**
With ESG Pro, simply assessing your suppliers can deliver quantifiable social value. Meet the standards with ease.
- ▶ **Limited Administrative Resources**
Lean back-office teams struggle with sustainability criteria when submitting bids. Our team is on-call to assist.
- ▶ **Brand Differentiation**
The competition is fierce and your brand needs to compete against well entrenched competitors. Leverage a top sustainability certification and ensure your company comes out on top!

TAILORED SOLUTIONS

Across the construction sector, sustainability is critical for customer retention, acquisition, and business growth. There's so much we can do, including:

- ✓ **Carbon Footprint & Net Zero Planning**
Establish and reduce emissions across all scopes, building a robust foundation for any certification.
- ✓ **Supply Chain Audit & Engagement**
Map and support suppliers, ensuring their ESG alignment to meet client and regulatory requirements.
- ✓ **Policy Creation & Documentation**
Our legal team develops and evidences policies covering environment, governance, and social value.
- ✓ **Certification Pathway**
We guide you through B Corp, EcoVadis, and GRI step by step—often combining them to secure top ratings such as EcoVadis Gold or Platinum.
- ✓ **Annual Sustainability Reporting**
We craft corporate-grade sustainability reports which can showcase your ESG and sustainability credentials.

HOW WE WORK FOR YOU

Every client is assigned an executive sponsor, project manager, and senior sustainability lawyer to guarantee success.

We work in focused two-hour sessions and handle the heavy lifting offline, freeing your team to stay focused on daily operations.

Flexible options – such as fractional sustainability management – save thousands compared with recruiting in-house expertise.

Fresh thinking!
